SPORTING NEWS

WAS RACE FIXED?

(Canadian Associated Press Dispatch)
New York, April 2.—Millard Sanders, former trainer of Lou Dillon, was the first witness called today in the trial of the suit brought by the Memphis Trotting Association to recover the gold cup won by Sanders' horse, Major Delmar, in 1904. It was testified yesterday that Geo. W. Spear, a former trainer for Sanders, negotiated with Ed. Sanders to have Lou Dillon put in such condition that he could not win the race.

Millard Sanders said his brother told him that they could get \$5,000 for making Lou Dillon lose the race. Sanders' examination was long and searching, and at the conclusion the court adjourned until to-morrow.

EXIT PETER MAHER.

(Canadian Associated Press Dispatch)
Hot Springs, Ark., April 2.—Peter Maher, one time aspirant to heavy weight championship honors, was knocked out tonight by Marvin Hart of Louisville, in the second round of a twenty round bout.

GOTCH AN EASY WINNER.

(Canadian Associated Press Dispatch)
Chicago, Ill., April 2.—Frank Gotch defeated "Finner" Burke tonight at catch as catch can wrestling in two straight falls. It took Gotch 20 minutes and 5 seconds to get the first fall and 17 minutes and 30 seconds for the second.

CALEDONIANS IN LINE.

The members of the Edmonton Caledonia club who incline to football in their athletic leanings held a conference Monday night when it was decided to organize a football club in connection with the Scotchman's association, and a meeting will be held during the week to appoint officers for the club. At Monday night's conference twenty members joined the team and the Scots are confident they can start the season with at least thirty members, from which a rotating goal eleven can be chosen to carry the team colors in the city league. Mr. Todd was selected as delegate to attend the league meeting on Friday night, when the constitution and

CURLING.

Red Deer curlers wound up the season on Monday with the annual points competition and considering no ice was in any too good shape the series of the high men indicate that the central city has a few high grade wielders of the broom and stone. Here are the figures:

CALGARY FEARED FERNIE.

Fernie Leight—That leading sport in the baseball line, Tom Whelan, was in Calgary a few days this week, and incidentally put it all over the would-be Calgary baseball experts. He told them all their shortcomings for the past few generations, and how they slighted Fernie when they made up the Western Canada league, also the main reason for passing up Fernie, which he indicated was because they knew Fernie could beat them up one side and down the other, and that the only way they ever got ahead of Fernie was when they worked the short-change racket on our lunch in that purse of \$200. The Calgary would-be have not as yet settled back in their comfortable dream of being the only exponent of the great game that ever happened. That's right, Calgary, now that you have been awakened we will see that Fernie calls you up or down a few times this season, and you will gradually become healthier and better sports. Are you?

FOOTBALL.

If the Hamilton right team wins the Dominion championship this year they will make a tour of England next winter.

The Port Saskatchewan club has been re-organized and will make football the feature of a big 24th of May celebration this year.

The southern section in the provincial league has all the clubs needed and High River will be forced to catch a place in the Calgary district. The St. Paul Church club colors will be blue and white, provided none of the other city teams have already claimed these shades for their uniforms.

There will be at least five clubs in the Southern Alberta league this year. Lathbridge, Pincher Creek, Taber, Macleod and Frank Love already paid the league entrance fee and have their teams practicing already.

By all reports, the majority of clubs in the Western Ontario Association will favor the non-adoption of the English amateur-professional rule. By all means keep the football game in Ontario free from even the taint of professionalism.

Owing to a number of the Alberta college students completing their course during April the students will not be able to put a team in the city league this spring, but will likely be heard from in the fall series of games.

Fort Saskatchewan will enter a team in the Alberta League. F. Walker, M.P.P., is honorary president of the club and Mayor McInnis president. There is a mayor and a lawyer on the executive.

British Columbia will this year be given the opportunity of sending a team to Winnipeg to participate in the contest for the championship of Canada, which will be played in the prairie capital during the month of July. With the championship goes the national shield that has been donated by an English newspaper. The People. This handsome trophy was first competed for last year, when the competition was held in Toronto, the championship being won by the Toronto Thistles. This year the competition will be held in Manitoba and next year in British Columbia. In presenting the shield the donors have stipulated that it must be played for in every province of the Dominion, as it is their intention to foster soccer from one end of Canada to the other.

TURF FACTS AND FIGURES.

Seven facts concerning the 1907 Eastern racing season:

1. The 1907 Eastern turf season has opened at Benning, Washington, D.C.
2. New Yorkers tossed off \$200,000, in one race, and that will probably mean more.
3. The racing association will give away \$850,000 in stakes this year. Eight courses made over \$3,000,000 in 1906.
4. Rosebush is the most formidable sprinter, Salvidere, Horace E., DeMund and Electioneer the most likely stayer-oids, and Harry Payne Whitney's great Burgomaster will enter the handicap division.
5. John E. Madden has been offered \$200,000 for two 5-year-olds. Refuses propositions.
6. Marvellous Miller is the jockey leader, with Lee and Kormer formidable aspirants to 1907 honors.
7. The 1907 season is expected at Washington, D.C., promises to be the most notable in every way known to American turf history.

Harness race enthusiasts of the country will be interested in knowing that Dan Patch, 1.56, will again assail the pacing records mostly held by himself.

NO MEAT; GREAT ENDURANCE.

Professor Irving Fisher of Yale, has completed endurance tests by which he finds that a diet without flesh food is more conducive to endurance than a diet of flesh. The tests were holding out the arms as long as possible, deep knee-bending and leg-raising with the subject lying on his back.

Forty-nine persons were examined, including students, physicians, nurses and college instructors.

TEN YEARS' LEASE.

At the meeting of the directors of the Edmonton baseball club on Monday night the papers giving the club a ten years' lease of the Ross Garden property were signed, sealed and delivered and work will be proceeded with at as early a date as possible to get them in shape and start construction work on the big new grand stand.

Manager White was heard from and he reports no difficulty in securing all the players needed to complete the team. Catcher Ford who has spent the winter here left Tulsa morning for Crist and the two will leave immediately for Spokane where the Edmonton team reports.

Famous Geologists Report on Oil

What G.M. Dawson, one of Canada's Greatest Geologists says about it
READ THESE FACTS

The Canadian Government Report for the year 1897 on pages 22-23-24-25 describing the Pelican River well.

"The different strata, as encountered after this are set out in the subjoined log. I used some of the heavy petroleum or maltha that flowed from the well in raising steam, and it made an extremely good fuel."

"If the hard slate stratum at 821-feet six inches had been pierced, a great flow of petroleum might, in my opinion, have been encountered, indeed it is altogether possible that at that depth we were within a few feet of a large body of Petroleum. Had it been struck while the flow of gas was in the unconquered condition, the result would have been disastrous as there might have been no possible means of checking the flow. The flow of gas was so great that a cannon ball could not have been dropped down the pipe."

"355 feet a good deal of gas." "743-768 struck gas and some oil at 750 feet quite a strong flow of gas at this point. Heavy oil similar to that struck before but of a higher specific gravity came out with the cuttings in the sand pump. The heavy oil seems mixed all through the sandstone and shale at this depth and it looks as though the tar sands had been entered at about 740 feet."

"820-820. At 820 feet a tremendous flow of gas was struck which blew every drop of water out of the bore. The roar of gas could be heard for three miles or more. Soon it had completely dried the hole and was blowing a cloud of dust fifty feet in the air."

"820-821-6 inches Conglomerate mass of iron-pyrites nodules embedded in oil." "At 821-6 a very hard stratum of slate was encountered which we penetrated about three inches. We could get no water down the well on account of the strong flow of gas so we could make no further progress with the drill in this hard cutting."

The danger to the men was so great that they refused to work longer over the bore. We then put the four and five eights inch casing down to the very bottom hoping to shut off the gas but failed to do so."

The Canadian Government Report for the year 1898 on page 29A says regarding conditions at Egg Lake:

"Tarry or pitchy matter is stated to be here first found in ploughing on the Northwest Quarter of Section Thirty Township Fifty-six, Range Twenty-five, West of the Fourth Meridian. Several small excavations were then made and veins or layers of hardened pitch and pitch saturated sands were found."

"A large amount of sand saturated with tar was lying beside this pit. We bailed the water out of this pit when the unstratified material with pebbles was found to extend down to a depth of eight feet and through it was running many veins of hardened pitch. Below this a coarse moderately even grained and apparently horizontally bedded sand is reached. THIS SAND IS SATURATED WITH TAR."

The well drilled near Egg Lake by H. L. Williams to a depth of 550 feet shows the formation there to be identical with the Pelican River well to the depth drilled excepting that it was necessary to drill 195 feet deeper to strike the first large body of gas. The Affidavits of P. S. Gaudette, N. Hittinger, A. Guertin, J. S. Teffe and Ayila Brissette, as follows:—I found gas escaping from said well in large quantities; that said gas when lighted would burn steadily with a blue flame.

The United States Government Report for the year 1902 says regarding oil near Edmonton.

"The conditions are similar to the regions producing petroleum in California and will in all probability produce petroleum in quantities when there are sufficient facilities for transportation."

GAS AND OIL

WE HAVE THE GAS

We have, as is shown above, the very best indications for oil, in fact Mr. Dawson further states in his report for the year 1898 on page 31A "Taking the proved existence of tarry petroleum at the Pelican and the indications at Egg Lake together we appear to have demonstration of the occurrence of such Hydrocarbons for a distance of over one hundred and fifty miles from and nearly at right angles to the direction of the natural outcrops of the 'tar sands' on the lower Athabasca.

We believe, and so do Canadian Government experts that we will strike oil

OUR STOCK IS FULLY PAID AND NON ASSESSABLE. A LIMITED AMOUNT OF THE TREASURY STOCK WILL BE SOLD AT 25 CENTS PER SHARE PAR VALUE ONE DOLLAR

BURN BEST AT SEVEN MILES.

Seattle, April 2.—Burn of Calgary won the seven-mile Marathon race yesterday competitors, leading all the way and winning without extending himself. The time, 20:26 2/3, is considered good, considering the state of the road and the fact that a light rain was falling.

Patton of the R.A.C. had been picked up by local experts as the probable winner, but the wise ones from the records, looked to Burn, the five-mile champion of Canada and New England, to land the honor. Burn came in by fifty yards. Sixteen of the nineteen starters finished.

LEVY INDIVIDUAL CHAMPION.

St. Louis, Mo., April 2.—Marshall B. Levy of Indianapolis, tonight won the American bowling contest by defeating R. F. Matka, of St. Louis, 590 to 579. Henry M. Stanley, the Aitken individual champion of the world, was defeated by fifty yards. Sixteen of the nineteen starters finished.

Food You Eat Should be Pure.

Seattle, April 2.—Burn of Calgary won the seven-mile Marathon race yesterday competitors, leading all the way and winning without extending himself. The time, 20:26 2/3, is considered good, considering the state of the road and the fact that a light rain was falling.

FRANCHISES HANG FIRE

Applications for Natural and Artificial Gas Franchises Referred to a New Committee.

By the time the flowers bloom in the spring trails, the city council may have decided what to do with the applications of the Northwest Gas and Coal Co. for an exclusive natural gas franchise, and that of the International Gas Co. for an artificial gas franchise.

At a meeting of the city council last night the progress made toward a satisfactory settlement of the difficulties surrounding these applications was of microscopic perceptibility. The sum and substance of this progress was in the discharging of the committee on New Industries, which failed to agree on a recommendation to council, and the other appointment of a special committee composed of Aldermen Manson (chairman), Smith and Gariepy. This committee was instructed to meet the natural gas people and make an effort to reach a mutually satisfactory basis on which an agreement might be drawn up, and also to consider the application for the artificial gas franchise from the International Gas Company.

These Majority Reports.
The committee on New Industries presented two brand new majority reports. The first dealing with the Natural Gas Company's application was to the effect that another conference between the representatives of the company and the members of the committee had been held, but no satisfactory agreement reached, and that the majority of the committee therefore recommended the withdrawal of the draft agreement presented to Council at the last regular and special meetings. The other majority report recommended the consideration of the agreement of the Artificial Gas Company's franchise.

City Solicitor Beck, who is a director of the Natural Gas Company, was granted permission to address the council, and he gave it as his opinion that the committee on New Industries should have, in fairness to the company, and as a matter of information to the council, enumerated the points of difference between the company and the committee on which the split occurred.

Alderman Gariepy expressed the fear that unless some arrangement were made the solicitor's fees in connection with this work would result in a large bill.

Alderman Picard thought so, too, but Alderman Manson thought the solicitor's charges should not be questioned. He suggested they should be taken off City Solicitor Beck's salary.

Alderman Walker pointed out that while the initial expenditure might be large, before the franchise questions were finally settled, still it was a big question and an advantageous settlement meant much to the city. He was decidedly in favor of securing the best legal talent possible, and Mr. Wallbridge had become familiar with the subject.

Alderman Walker and Anderson moved to take up the Artificial Gas Company's franchise application at once, but Alderman Gariepy argued

that the Natural Gas Company's application should first be disposed of, and it was finally agreed to let both applications go to the new committee.

Alderman Picard's Oration.

Alderman Gariepy took occasion to offer an inoffensive criticism of the future of the New Industries Committee to include in any of their reports to council the points of difference between the committee and the Natural Gas Company.

The exclusive clause was the point on which we split," said Alderman Walker. "That sounds loud and may look big in the eyes of the taxpayers to talk about objecting to the exclusive clause, but it is quite possible for a non-exclusive franchise to be less advantageous to the city than an exclusive one."

Mr. Eaton, representing the International Company, pointed out that he had waited for six weeks for something definite in reference to his application, and he was anxious to have the matter settled. While the Northwest Gas Company's application had been given a great deal of consideration his application had been shelved. Alderman Gariepy's motion to give the new committee a week on both applications carried.

R. C. Hospitals Claim For Grants

Referred to Special Committee for Report—Figures Showing Institutions' Work.

The claim of the two Roman Catholic hospitals in the city for municipal assistance was discussed by the City

Council last night, and a committee composed of Aldermen Manson, Picard and McCauley appointed to bring down a report on the subject. The discussion arose out of a report of the Commissioners giving information on the question.

The report presented the following figures:

General Hospital.
Total cost of buildings and equipment \$20,000
Number of patients treated in 1906 673
Maintenance for year \$10,784.27
Total Revenue \$11,873.01
Surplus Revenue \$695.74

Misericordia Hospital.
Total cost of Buildings and Equipment \$67,000
Number of patients treated in 1906 471
Maintenance for year \$11,625.74
Total Revenue \$12,739.00
Surplus Revenue \$1,113.26

The hospital authorities had not informed the Commissioners on the point, but it was assumed that the interest payable by them upon borrowed money had been included in the maintenance expenses, and, if this was the case, there should, however, be a further charge upon the hospital to recoup them for their initial outlay. Reckoning this at a reasonable rate of six per cent, the result would be as follows:

General Hospital.
Exp. on \$20,000 \$2,000.00
Less surplus revenue 695.74
Deficit for year \$1,304.26

Misericordia Hospital.
Exp. on \$67,000 \$6,700.00
Less surplus revenue 1,113.26
Deficit for year \$5,586.74

The proportion of patients from outside of the city was in the case of

the General Hospital 45 per cent., and in the case of the Misericordia Hospital 25 per cent. of the whole.

Alderman Gariepy asked the city solicitor how a grant to the hospital's could be legally made.

"By a vote of the Council," replied Mr. Beck.

Favored a Grant.

Alderman Manson was in favor of making a grant to these hospitals. He pointed out that many of the taxpayers who would be called upon to bear their share of the grant to the Public Hospital, were at present contributing to the support of the two hospitals under the control of their church. He further referred to the good work done by both the General and the Misericordia and declared that without them Edmonton would be sadly lacking in hospital accommodation.

Alderman Smith asked Alderman Manson how large a grant he would favor making.

Alderman Manson was not prepared to set a figure.

The committee appointed to consider the question was instructed to recommend a fixing grant.

WESTERN HAPPENINGS.

The C. N. R. has opened an up-town express office at Regina.

The Brandon Construction Co. will build the new school at Lacombe this year. The contract price is \$40,346.

P. Pilgden, lately of the firm of Pilgden & Wallace, men's furnishings, and Mr. Joseph Wallace, will open out in a real estate business in Deer this spring.

The C.P.R. will build a new hotel at Moose Jaw. It will have seventy-five rooms, and cost in the neighborhood of \$175,000.

H. Shipley, of Vegreville, is erecting a \$3,000 hotel at Holden.

Wm. Campbell, a Holden farmer, last week sold twenty-one of his winter steers for \$1,100.

A \$3,000 stock company has been formed to build a telephone line between Vegreville and Holden, twenty-five miles.

Hardisty has three hotels, and still it is almost impossible to get a bed, so numerous are the visitors to the town.

EMERSON MADE THE

INTERCOLONIAL PAY

Despite the Drawbacks and the Fact That P. E. I. Road Lost Money—Prospects are Now Bright.

(From Our Own Correspondent.)
Ottawa, March 12.—The Minister of Railways delivered his annual speech on the operations of the Department of Railways and Canals yesterday.

One of the most interesting statements was that during the year 1906 the Intercolonial had actually returned a surplus instead of a deficit, the profits exceeding the expenditures by \$28,861.77.

P. E. I. Road a Loss.
The Prince Edward Island Railway, however, resulted in a loss of \$185,135.45, leaving a loss of \$207,273.68 on the entire Government system. This, however, was a betterment of \$118,151.46 over the preceding year.

Prospects Brighter.
Speaking of the outlook for the future Mr. Emmerson said: "It will be interesting to know that the improvement is based upon such facts and conditions as will immeasurably ensure improvement in the future. The result is not merely a spasmodic one to be followed by a retrograde movement but one which is bound to endure. While I was gratified with the showing of 1906, I have very much more reason to be gratified at the result of the operations of the road during the first six months of the present fiscal year, commencing the 1st of July, 1906, and closing the 31st of December of that year. At the end of the first six months the gross earnings of the railway were \$4,082,512.38 and the gross expenditure \$4,047,506.43. This shows a net surplus of receipts over expenditure the operators were relying on new of \$37,005.95 in the operations of the railway during the six months. I think, that is the best result that the Intercolonial Railway has demonstrated for many a year. And this result, on its face, is the more gratifying because of the fact that there were certain unusual expenditures made during that period but for which the surplus for the six months would have been still larger."

Despite Drawbacks.
Continuing the Minister said: "The results I have just recited with respect to the first operations of the railway during the first six months, as well as the result during the preceding year, were very satisfactory indeed; and they were obtained in the face of very large increases over previous years in the cost of material and labor. For many years the employees of the Intercolonial Railway in my judgment, were inadequately paid. There may have been some cause for keeping down the remuneration paid to the employees. Although we all recognize that the latter is worthy of his hire, there may have been some slight excuse for the effort that was made to keep down the wages in the fact that the financial condition of the Intercolonial Railway was not satisfactory and that its earning power did not improve. At the very inception of the road, very low freight rates were established and there was never any change in an upward direction. The passenger rates were placed at a minimum and they have never been increased. These rates were established with a view to promoting trade and communication between the seaboard provinces and the inland provinces. At the same time, increased accommodation and added luxuries in travel added to the cost of operating the road. Thus the burden of annual expenditure was gradually increasing higher and higher, while earning power was not increased by any material extent. The wages of the men was increased 10, 15 or 20 per cent. at a time, but no corresponding increases in freight or passenger rates were made. The result was inevitable—there was no improvement in the balance sheet as the years passed by. During the year 1906, I have made an effort to increase my passenger rates and our freight rates. During the past six years we have practically added \$1,000,000 to the yearly wages of the employees of the Intercolonial Railway—that is, to the same number of employees and of the same general class, we are paying about \$1,000,000 more annually than we paid in the year 1900. In every department there has been an increase. I hope I shall not weary the House too much, but I feel it my duty to show in detail wherein these increases occur. And, while the traffic has been growing, we have not been receiving corresponding results, because of the fact that our

expenses have been increasing, not only in the cost of wages but in the cost of material as well."

What of the Future.
"Now I say that the future of the Intercolonial is a matter of concern. Some advocate the giving away of the Intercolonial to another railway system. I have before me an editorial from the Halifax 'Herald' proposing that the Intercolonial be divided between the Canadian Pacific Railway and the Grand Trunk Railway, the road from St. John to Halifax to be leased to the former and the northern section to Montreal, the Short line, the Pictou branch, the eastern extension and the Cape Breton Railway to go to the Grand Trunk. Now, the Halifax 'Herald' is the organ of the Conservative party in the province of Nova Scotia, and I do not suppose that it was the hope of the leader of the opposition to dispose of the Intercolonial. But if the Halifax 'Herald' truly voices his sentiments, and the sentiments of his party, then we must conclude that that party advocates the transference of that railway to other systems and its annihilation as a government operated system. We often see references in the newspapers to proposals which are being made by at least one of the great railway companies of the Intercolonial to secure not merely running rights over the Intercolonial between St. John and Halifax and other eastern points, but secure such a joint use of that railway as will make it a trunk line from Halifax to St. John. We all know that this parliament has pledged itself by solemn agreement and by enactment that at some time, on the completion of the Grand Trunk Pacific, and when that company has constructed its lines from Winnipeg to Montreal, this country will give, for a consideration, certain running rights not defined over the Intercolonial from Montreal to Halifax and to St. John. What the character of those may be the future alone must determine. The conditions which will prevail will govern the character of the rights and privileges that will be accorded them. But there are other systems which are anxious to secure certain privileges in connection with the Intercolonial. Now, giving my own individual opinion on the matter, I say that the Intercolonial Railway should never be parted with, that it should never be allowed to constitute any portion of a trunk line that would be controlled by a private corporation. The very moment one of these railways, whether it was the Canadian Northern, the Canadian Pacific Railway or the Grand Trunk Pacific, secure such a use of the Intercolonial as would make it either one of these trunk lines through Nova Scotia, that very moment the character of the Intercolonial must of necessity change, because making it a trunk line for a private corporation means that each private corporation would enjoy a participation in its traffic, local and general. It would enable such a company at once to secure, between daylight and dark, every loaded train that would pass upon that Intercolonial, and in securing these leaders that company would be absolutely worst from the Intercolonial traffic which it carries today. For every train that would pass upon that line operated as a part of a private corporation, there would be removed from that railway a corresponding train that had theretofore been operated by the Intercolonial. Gathering up the branch lines, securing trunk line rights over the Intercolonial, would enable any company to make of the Intercolonial a thing absolutely worthless as an asset of Canada. I am sure that in any discussion that may arise with regard to the traffic that had theretofore been operated by the Intercolonial, it is a thing that no step shall be taken that would in removing from the Intercolonial its freedom, its control, its sphere of influence over the country adjacent to the line extending through the provinces of Nova Scotia and New Brunswick."

I have felt that while the Intercolonial has had to combat many prejudices, and while there have been many influences against it, yet in view of the good it has done to the country, in view of the trade it has promoted, the day would come when the people of Canada, irrespective of section, would join in the desire to have the Intercolonial extended.

ed; would wish it to widen out its influence and absorb its feeders, either by leasehold or by some other means.

Extend the Road.

In the history of Canada, especially of Western Canada, we note this striking fact that when you follow along the line of the Grand Trunk Railway or the Canadian Pacific Railway, wherever there are independent branch lines, feeders to their main trunk lines, one by one they are gathered in so that after a time the main trunk lines absorb all these branch lines and they are all run as one system. I assume that that is a business course also these great corporations, governed by keen business men, would not have followed such a course. They would not have acquired these lines but they would have left them to run as independent connections of the main trunk line. I have felt that the government of Canada might some day be impelled by the force of public opinion, by the judgment of the people throughout the country, to secure to the Intercolonial Railway as against all other companies the branch lines which connect the feeders to the Intercolonial Railway. What are these branch lines but instruments to gather up the traffic in the adjacent country side and hand it over to the trunk line system—the Intercolonial Railway. In so doing these branch lines are favoring and contributing to the advancement of the sections and communities which they are supposed to accommodate; pay, more than that they are contributing materially to the growth and expansion of the traffic of the Intercolonial Railway and therefore I say that I believe the day will come when a demand will go out from the people of Canada in favor of the absorption of these lines. I would, Sir, not be content with that. I would feel that in order to clear closer together those isolated communities and to draw them closer to the communities of the west it would be desirable that the Intercolonial Railway should penetrate farther west, that it should reach the industrial centres of Canada and especially that it should reach the great industrial centre of Central Canada—I refer to the city of Toronto. I look forward, Sir, also to this: There are railways starting out from the extreme west reaching forward eagerly and anxiously to an eastern seaport. Many of them are concentrating their efforts upon reaching the great city of Quebec, and there reaching a great ocean port, but a port which is closed for many months of the year and I would anticipate that at some not far distant day these railways, converging at the great city of Quebec, will be reaching still farther east, so that they may find, during the winter months, open water upon which the ships would sail that would take the traffic that our railways would gather up in the west and carry to the east. That day may come, I hope it will come—any, more, I believe it will come and when it does it will send all speculation as to the future of the Intercolonial Railway. It will for all time settle the question of the value of the Intercolonial Railway as an asset of the Dominion of Canada, and it will certainly bear out the fact, which I have at least claimed as a fact, that the Intercolonial Railway is a great thing to the people of Canada both east and west, that it has served its purpose and its mission in the past and that it still has a purpose and a mission to perform and I am sure that when we reach that stage there will be no sectional differences over the matter and that we will all see eye to eye with reference to the manifest destiny of the Intercolonial Railway."

CITY OF EDMONTON.

Extension of City Sewerage System.
Notice is hereby given that the Municipal Council of the City of Edmonton intend to undertake as a local improvement the construction of sewers through, under and along portions of the several streets and places hereinafter designated; and to raise the moneys necessary to pay the cost thereof partly by means of a special frontage assessment and partly upon the credit of the municipality at large, in the same proportions, as nearly as the circumstances will admit, as the moneys obtained in the sale of the original establishment of the municipal system of sewers.

The portions of the several streets and places hereinafter referred to are as follows:

16th street from top of hill to McKenna street from Nampayo to Synchuan.
15th street from top of hill to McKenna street from Fraser to Government.
14th street from Jasper to McKenna street from Fraser to Government.

DAY TO DAY

SOCIAL.

Lady Dorothy Stanley, widow of Sir Henry M. Stanley, the African explorer, was married in London last week to Henry Curtis, F.R.G.S., Mrs. Craig of Dawson, wife of Judge Craig, is visiting her daughter, Mrs. Harvey Fitzsimons in Ottawa.

Rev. D. Bruce Millan, M.A., pastor of the Presbyterian church at Ellensburg, Saskatchewan, formerly of Kirkcaldy, Scotland, was married on March 19 to Miss Lucy Francis Wiler, eldest daughter of Mrs. L. W. Wiler, Toronto. The ceremony was conducted in the Ellensburg Presbyterian church by Rev. J. Russell of Volsley, and Rev. F. A. Clare, a former pastor of the church.

Mr. Gordon Carling, of Cochrane, Alberta, arrives in the city at the end of the week to act as one of the ushers at the wedding of his cousin, Miss Powell—Ottawa Journal.

Mr. Lucien Dubuc who spent the week-end in Calgary has returned home.

Miss Marjorie Powell whose marriage to the Hon. Charles Fisher takes place in Ottawa today has been the raison d'être of many delightful social functions, amongst the most recent were luncheons given by Mrs. H. K. Egan, and Miss Louise Douglas.

A quiet but very pretty church wedding was solemnized at St. Thomas church, Belleville, on Monday when Miss Carrie B. Butler of Belleville was married to Mr. M. Dunham, of Edmonton. The ceremony was performed by Rev. Rural Dean Beaulieu. The bride wore her travelling gown and was unattended. After the wedding breakfast, Mr. and Mrs. Dunham left for Toronto, en route to Edmonton.

Mrs. Dandurand's theatricals at the Senate on the evening of Wednesday, April 3rd, are something to be looked forward to with pleasure. Mrs. Dandurand's own play in French for which she received the prize of the French Academy will be staged by a number of Montreal's young society people. It will include a stately minuet, "The Mouse Trap," by William Dean Howells, will also be seen with some Ottawa artists. A dance will follow in the lobby of the Senate. Miss Gabrielle Dandurand will fill the title role in the earlier play—Ottawa Journal.

Mrs. Youill, of Carman, Man., plucked panies in full bloom in her garden Saturday.

The trustees at Nanton have been authorized to borrow \$1,000 to build and furnish the schoolhouse.

INVESTIGATING THE LUMBER BUSINESS

Committee Adduces Further Facts—Members of Lumber Association Sworn to Maintain Prices.

(From Our Own Correspondent.)
Ottawa, March 26.—When the committee investigating the alleged lumber conspiracy met today, Mr. A. E. Wark, who has been a conspicuous figure among the lumbermen attending the sessions, produced a telegram from a Cranbrook millman, contradicting the statement of Mr. Wilkinson of Regina that he had been refused to take action against Mr. Wilkinson on the strength of the telegram. The committee resumed business, however, and Mr. Lewis of Westminister continued giving evidence.

Members Were Sworn to Maintain Prices.
Mr. E. H. Hoag has stated that members of the Coast Association were not bound by any oath to maintain prices. A minute was read from the books of the Association, however, ever, providing for engaging an auditor or to whom the manufacturers would be required to make oath that they would not cut prices; also a minute that the secretary had prepared an affidavit for each purpose. The auditor later reported that he had taken declarations from nearly all members. Witnesses said Mr. Hoag was wrong; the manufacturers were bound by oath to maintain prices but this rule was not operative after November, 1906.

Had Violated Oaths.

The violation had never been annulled by counter-resolution; the practice had simply been stopped. Even while the affidavits had been made he thought the prices had been cut.

Said Oath to Association Dealers.

He knew nothing about E. H. Hoag & Co. having been found for cutting prices. In 1904 he admitted that the Coast Association was working with the Mountain Association in supplying only members of the Western Retail Association.

Purpose of Association.

The sole purpose of the Association had been to get the lumber manu-

COMMISSION ON BEEF TO MEET

At an Early Date—Minister of Agriculture Will Go to Winnipeg After Details.

Hon. W. T. Finlay, minister of agriculture, returned to the city last night from his home in Medicine Hat. Speaking to the Bulletin this morning, Mr. Finlay said he was preparing to undertake the beef inquiry as soon as possible. His purpose was for Regina and Winnipeg about the 10th of this month to confer with the governments of Saskatchewan and Manitoba on the matter, and to arrange the details of the commission. Mr. Finlay says that everything promises for a most successful meeting of the fat stock show and purchase sale in Calgary this week. The farmers of the south will be seeing in a few days.

MURDER OR SUICIDE.

(Canadian Associated Press Dispatch.)
New York, April 2.—The body of Angela Perillo, a young Italian, was found in her tenement in Bath Place Brooklyn today, with a bullet wound in her temple and her throat cut. Police were unable to determine whether she committed suicide or was murdered. Her husband was missing. It is supposed she was murdered by a black hand man who took her for a young woman who formerly occupied the tenement and whose father was murdered. This woman threatened to avenge her father's death.

DYNAMITE EXPLODES—ONE DEAD.

Hammond, Ind., April 2.—One man was blown to atoms and a small storehouse wrecked at Astoria, Indiana today by an explosion of dynamite.

STRIKING TEAMMEN WILL ABSTAIN.

Chicago, April 2.—The members of the Railway Teammen and of the Order of Conductors have decided to abstain from striking regarding the demand for a shorter day with the managers of the railroads.

ROY CASTLETON, THE NEW YORK HIGH-LANDER'S NEW PITCHER.

This seems to be a season for new managers. In the nine leading leagues of the country there are 31 new clubs with new leaders. Unless several of the new twirlers make good, the New York Americans will be no stronger in the box this season than last.

"CHIEF" STALL, THE 1906 CAPTAIN OF THE BOSTON AMERICANS, COMPLETED MONDAY AT WEST BADEN SPRINGS.

There were thirteen cars in the special train on April 2nd, and they were south on the spring training. This ought to keep a lot of money off them as a championship proposition.

PAUL WILSON, THE FORMER NEW YORK NATIONAL LEAGUE CATCHER, HAS BEEN SIGNED AS THE PLAYING MANAGER OF THE VANCOUVER (B.C.) TEAM.

Reports from the coast say that Wilson's throwing arm is just as good as in the days he topped the shots of Ames Beale and Josiah Meekin, who twirled for the Giants.

LEFT-HAND HITTERS WANTED.

The left-handers were all the rage some years ago and then they fell off. Now they are "in" again. Nearly every club wants two good left-handers. Most of the youngsters now breaking into big league company are left hand hitters.

ALL THE LEGS PRACTISING ON THE SAND LOTS ARE TRYING TO HIT AT THE LEFT BECAUSE IT HAS BEEN DRILLED INTO THEM THAT TO BAT THAT WAY RATTLES THE PITCHER AND GIVES HIM A BETTER CHANCE TO GET OUT.

A large per cent. of the big league stickmen last left-handed these days and the southpaw twirler is the only man to conquer them. The left-hand pitcher can make the left-handed batter look sick as a rule before the end of his inning.

AUCTIONEER

B. Laughan.
On Queens Avenue, north of market.

FOR SALE—A GOOD SADDLE HORSE.

Is quiet in single and double; weight 1000. No. 37, Edmonton.

STRAYED—TO MY PREMISES.

lost 2 months ago, dark bay horse, pony, white nose, weight about 700, no brand. Napoleon Bell, St. Albert.

MONEY TO LOAN. INSURANCE

NEW YORK STOCKS.

(Canadian Associated Press Dispatch.)
New York, April 2.—The stock market was affected today by the pace at which the recovery has been going from the extreme depression of the first part of last week. A disposition to take profits counted with a lessened inclination to buy stocks.

Measures of support were particularly unfavorable on account of influence of the fall in prices of Americans before trading began here. The support had no difficulty however, in restoring the decline and in bringing the prices well over last night's level. The aggressive strength of a few stocks had a large influence on the result.

It was from this restored level of the market that the movement began wavering and uncertain again. The most notable developments were in the money markets. The relaxation there was marked and practically universal, both here and abroad. In London the private discount rate descended to below the bank rate for the first time in many weeks.

The sterling exchange market, less troubled by the London money rate, rebounded violently. The relapse in local money rates also affected foreign exchange. The day's net changes show the decline predominating. The show declines predominating. The show declines predominating.

Bonds were more benefited by the easing markets than stocks, and there was an appearance of a considerable shortage demanded at close of the day. Sales, par value, \$2,915,000. United States bonds were unchanged on call.

MAY WEAT.

(Canadian Associated Press Dispatch.)
New York, April 2.—Money on call easy. Highest 3 1/4, lowest 1 1/2. Rule ruling rate, 5 1/2; time loans easy. Offered at 2 1/4. Time loans easy.

Is fifty and ninety days a 1 1/2 per cent. a full-blown Hawaiian, being born in Boston, Mass., April 2.—Analysis in Honolulu twenty-four years ago. Mated copper, copper red and blue. He is a stout, muscular, over six feet were notably active in the early part and weighing 225 pounds. For copper stock market today. The market for six years he has picked for hot was dull, but firm in the afternoon and closed in the general list showed little change in prices.

EDMONTON BULLETIN
DUNCAN MARSHALL
Manager

WEDNESDAY, APRIL 8, 1907.

MR. FOSTER VS. THE SETTLER.

The House of Commons spent an afternoon not long since in discussing ways and means to bring the session to a speedy termination. During the course of the debate Hon. Geo. F. Foster suggested that the end could be reached much sooner if the new Lands Act were laid on the shelf till next session. There is nothing particularly new in this pronouncement of a formidable gentleman, his speech a fortnight since having made it abundantly apparent that the temporary abandonment of the measure would meet with his unequalled approval, and that he would be correspondingly gratified if the bill were postponed forever. On that occasion Mr. Foster took the opportunity to put himself on record deliberately and unequivocally as opposed to the pre-emption privileges which the new bill offers to the western farmers. This proposal he stigmatized as altogether unnecessary, altogether unwise and altogether unjustifiable. The western settler he assured the House was the possessor of a "privately gilt" when he got 100 acres of land for nothing; to sell him another 160 acres at a moderate price was merely a form of burglary, the whole contemplated transaction being on an ethical level with a plot to take millions of dollars from the national treasury and distribute among the people of a nation.

This course is manifest nonsense—no manifest as to suggest that Mr. Foster would not have staked his reputation upon it unless impelled by some very strong and very direct motive. That the homestead is a splendid endowment for the new settler is unquestioned. But to represent the pre-emption privilege as anything akin to a "large" or a "benefit" is a misrepresentation of the plain clauses of the bill which no responsible public man would lightly undertake. And to compare a plan for placing an acre of unoccupied and unused farming lands in the hands of those who will cultivate it to a comprehensive scheme for looting the national treasury is a violation both of fact and logic at which even Mr. Foster would hesitate if not urged to it by some ulterior purpose. What can be this powerful motive which impels Mr. Foster into uncalculated hostility to the western farmer? What interest does the new bill threaten or what hope does it deflect that bring upon it the censure of the member for North Toronto?

To determine this the purpose of the bill must be ascertained. The outstanding feature of the bill is to place 40,000,000 acres of land within reach of the farmers at reasonable prices and on easy terms. It is the men who have the speculative spirit who want to get clutches on large areas of western lands with the expectation of holding up the settler for a fancy price. For a time at least these ray anticipations must fade if the measure becomes law, for the settler who can pre-empt land at 43 per acre will not buy fancy prices for speculative syndicates for land of no better quality. Is Mr. Foster much better qualified than this expectant settler? At last reports the Great West Land Company had still on hand the 300,000 acres bought from the C. P. R. with Union Trust Company money and juggled through successive syndicates in which Mr. Foster was personally interested till it reached a price to the Great West Company of some \$5.00 per acre. In this company Mr. Foster is interested. Upon the repayment of the money to the Union Trust Company depends his reputation as a financier, and this repayment in turn is it reasonable to suppose, depends on the sale of the lands at a profit. Assuming the new land bill becomes law—the sale of this land will be expedited or delayed. Will the personal interest of Mr. Foster in this speculative enterprise be served or injured? Will the financial reputation of that gentleman be enhanced or damaged?

Professor Irving Fisher of Yale, has completed endurance tests by which he finds that a diet without flesh food is more conducive to endurance than a diet of flesh. The tests were being held out the arms as long as possible, deep knee-bending and leg-raising with the subject lying on his back.

Forty-nine persons were examined, including students, physicians, nurses and college instructors.

TEAM OWNERS' PETITION

For Fixing of License Fee New
Referred to a Council
Committee.

The Commissioners did not make a recommendation to the City Council last night in reference to the petition from the team owners asking that the business of teaming be licensed as well as protected, and also that a scale of charges be fixed. But the Commissioners presented a report which contained considerable information on the subject, and the council referred the question to the Committee on Bylaws and Special Legislation.

The report of the Commissioners was as follows:

Re Petition From the Team Owners' Association.

The points made up by the association appear to be the establishment of a regular tariff for team hire, and protection for the members of the association whilst working under this tariff, and as these are matters of policy upon which the Council alone has the power or right to decide, your Commissioners have, thinking this matter referred to them, having this duty does not extend beyond laying the facts of the present state of affairs before the Council that they may be fully advised therein. These facts are as follows:

1. The present License Bylaw contains this clause: (m) "Every driver, and the license fee shall be \$6.00 per annum for each and every day, whether single or double."

2. No license is at present exacted for hacks or "busses."

3. During the present year 43 licenses have been issued, at a fee of \$6.00 each, and the license fee is \$6.00 per annum for each and every day, whether single or double. For each license issued a metal plate, setting forth the number of the license and the year for which it is paid, is given for the purpose of being placed upon the day so licensed.

4. The exercising of this power of licensing, and the exacting of license fees, has been one of the most difficult business of the license system, as a great deal of fault has been found with it and licensees have been most unwillingly paid, the license demanding a degree of protection which it appeared impossible or impracticable to provide.

5. Up to the present a business license has been placed upon licenses, and the license fee is a tax levied upon their general business, outside of the license, which has been regarded as a charge only upon such license as were used for transient business and available for hire at any time on the street.

6. Payment of license fees does not entitle the licensee to a vote, whereas a business assessment does convey this privilege.

NEGLECT CAUSES SUSPENSION.

Washington, April 2.—Captain Wm. Swift, who commanded the battleship Connecticut when it grounded near Cuba, on January 15, is being court-martialed for neglect of duty by the court martial which tried him. Assistant Secretary of the Navy Henry C. Taylor, who was in command of the battleship, will be suspended from duty for nine months, and will lose three months.

Miss L. Christie, of Ponoka, and Miss Hood, of Red Deer, arrived yesterday to attend Alberta College for the balance of the term.

Lacien Dubuc and Emilie Tessier left Calgary visitors in the early part of the week.

A. A. Morrow and O. Moon were yesterday at the Alberta, Calgary, on Monday.

Mrs. A. Smith and Mrs. Robinson, of White Whale Lake, are Edmonton visitors today.

Miss Somerville, a graduate of the general hospital, arrived in the city on Monday, and has taken a position on the nursing staff of the Edmonton public hospital.

"Rocky" Edmonson, an employee in the city offices, leaves today for Vancouver, B.C., where he expects to make his home in the future.

Mrs. J. A. McMillan and family of Fort McMurray, are spending some days in Edmonton this week. They are at the Cecil.

NO MEAT; GREAT ENDURANCE.

Professor Irving Fisher of Yale, has completed endurance tests by which he finds that a diet without flesh food is more conducive to endurance than a diet of flesh. The tests were being held out the arms as long as possible, deep knee-bending and leg-raising with the subject lying on his back.

Forty-nine persons were examined, including students, physicians, nurses and college instructors.

Around the City

Milwaukee has voted to purchase for their municipal electric light plant a gas producer plant of the same name as that authorized by the City Council last night.

Dr. Forin and C. B. Rogers, district manager of the Imperial Life Assurance Co., have removed their office from the Sandison block to the Northern bank building corner of Jasper and Fraser avenues.

The body of the late Russell Adams, killed on the E. Y. & P., was taken to his home at Bentley, Alta., yesterday afternoon. Dr. Hiddell accompanied the remains, and will officiate at the funeral today.

Building permits taken out Tuesday were all small, the number including the following: J. Bell, Norwood, dwelling, 800; Ludwig Lorip, Hamilton, dwelling, 800; Dominion News Co., Clara, shop, 1200; Leon S. Hamilton, dwelling, 800; Charles Peter, Helminck, dwelling, 1200; Jacob Ives, Boyle, barn, 300; Almon Munson, Norwood, dwelling, 1100.

Messrs. J. L. Cole and Frank B. Smith have formed a partnership to carry on civil and mining engineering work as well as conducting assay work. Their office is in the Melwood block. Mr. Smith was until recently inspector of mines.

PERSONAL.

W. A. Campbell, of Penhold, is at the St. James.

J. J. Brant, of Pincher Creek, is at the Peninsula.

Dan McQuigley, of Pembina, is at the King Edward.

G. E. Turner, of Brandon, is registered at the Cecil today.

J. Barnett, of Blackfoot, was an Edmonton visitor yesterday.

A. F. Keley, of Paken, is registered at the Peninsula today.

T. J. Martin, of Sidgwick, is spending the day in Edmonton.

D. Hutchinson and Joe McCabe, of Calgary, are guests at the Peninsula.

Duncan Marshall returned last night from a business trip to Swift Current and Calgary.

J. G. Edgar, of the Dominion Brokerage Co., Calgary, arrived from the city yesterday.

R. McDonald and J. M. Vicker, of Calgary, arrived from the city yesterday, and are guests at the Cecil.

G. D. Davidson, of the railway mail service, Calgary, is in the city today.

Miss E. F. Parton, of Calgary, is on a short visit to Edmonton friends this week.

Mr. and Mrs. Johnson, of Wetaskiwin, are guests at the King Edward today.

Mr. and Mrs. J. Bigley and son, of Wetaskiwin, are guests at the Peninsula today.

Mr. and Mrs. Dooking, of Lac la Poudre, are spending a couple of days with city friends this week.

Capt. M. E. O'Brien, of the legal force, is in the city.

A. G. Austin, of the real estate firm of Irvine & Austin, and E. J. Clarke, of Calgary, are in Edmonton today.

H. J. Niles, arrived from Canmore yesterday, and will spend a couple of days in the city.

G. R. Disher, a Markerville real estate agent, is an Edmonton visitor today.

Miss Jean Forsyth, of Vancouver, arrived in the city yesterday, and will visit relatives here for a short time.

E. Carey, general merchant at Andrew, accompanied by Mrs. Carey, were calling on Edmonton friends a few days this week.

D. McGillivray, managing editor of Calgary's new evening daily, the News, is spending the day in Edmonton.

Harry Turpin, of Hardisty, is in the intervention would certainly not have been entirely confined to police the city today.

John Ross arrived home yesterday from an extended holiday in California. He also spent a short time at Vancouver and Nelson, B.C.

Rev. C. J. Pritchard, the Church of England minister at Ashcroft, landed, arrived from the north yesterday, and will remain in Edmonton a couple of days.

Mr. and Mrs. Fred Frost, of Owen Sound, are spending a few days in Edmonton. They come west for the marriage of the former's brother, Chas. B. Frost, of Edmonton, to Miss Cook, of Owen Sound, which took place yesterday at Calgary.

Geo. Adams, former owner of the Pan city store, left yesterday for Spokane, to join the Edmonton branch of the United Brotherhood of Carpenters and Joiners, which commences spring practices in a few days.

Miss Gladys McLean is spending the week with Mrs. Allan, of Calgary.

STRATHCONA

REGULAR MEETING
OF CITY COUNCIL

The regular weekly meeting of the Strathcona City Council was held last night with a full board present.

A communication was read from J. J. Duggan, asking for permission to make an extension to the east end of his brick block at the corner of East Highway and Whyte, and also to move a shack. The east end wall of the brick block is now wood, and Mr. Duggan wanted to extend it and complete the front in brick veneer. Permission was granted, but he will be notified that he must comply with the law re the shacks.

H. F. Sanderson again wrote with reference to the milk in the quotation of prices on lots for the Bailey Soap Works. He inquired if the council would accept the lots between the two sites for proposed oil buildings, and pointed out that to scatter these buildings would greatly depreciate the surrounding property. The council decided to purchase lots 7, 8, 9, Block 10, at \$4,500, and to request the C. & E. Co. to return lot 8, until Mr. Bailey had an opportunity of purchase.

J. H. Davies asked the sanction of the council to prepare a city map. He also stated he was open to an engagement as assistant engineer and building inspector.

Gillies & Grogan, Calgary, wrote they were shipping 150 pounds of dynamite as per request, but it would have to be sent by freight. This material is clean and the source of water supply, the composition of which has caused recent low pressure.

Dr. Archibald wrote stating that Dr. Hobson would act as medical health inspector during his absence at the coast. This, with a letter from the Canadian Westinghouse re payments due, was filed.

Thos. McKeelvey drew attention to the alleged continued obstruction of the street by buggies in front of J. Wainwright's livery. This letter was handed over to the by-law committee.

Secretary-Treasurer Doonan wrote asking for an assistant. The finance committee will consider the request. Two petitions were presented requesting sidewalk on the south side of the southeast corner of Block 118 to the southwest corner of 117, and also on the west side of 112.

Letters were read from the mayor with reference to sidewalk extension to the bridge, and the credit of the city, the second communication enclosing a letter from the manager of the Imperial Hotel, stating that the interest in future would be six per cent.

The public works committee were given power to act in the matter of a sidewalk from Main to the hospital, and the tender for sewer pipe at a cost of \$10,022.75 was awarded to W. F. Lee, Winnipeg.

A report from the auditor submitting a balance sheet from six months from January to June, 1906, was laid on the table.

A number of other minor matters were discussed before the council adjourned at 11:30.

CITIZENS WANT MORE SIDE-
WALKS.

Before the Strathcona city council last night, W. Cameron and Dr. Wainwright appeared protesting against only the partial granting of the petition asking for grand sidewalks on both sides of Main street as far south as Carey. The council at a previous meeting had decided to extend only as far as Boulevard on the west side, and Anderson on the east, but last night revoked this decision, and will grant the petition in full, the work being done as soon as possible.

AN AMBASSOR FOR STRATHCONA.

The appointment of an ambassador for Strathcona will be made at the next meeting of the city council. The necessity of an expert is apparent to the council in view of the introduction of the new single tax system of taxation. The applications are as follows:

H. B. Clark.
E. D. De Paul.
Geo. R. Frain.
R. H. Palmer.
R. J. Macdonald.
J. O. Foster.

SPECIAL SESSION OF MANITOBA
LEGISLATURE.

Winnipeg, April 2.—The legislature of Manitoba is likely to be convened at a special session in the near future to consider the charter of the Winnipeg Grain Exchange, with a view to amending it.

For Sale

Good farm, 160 acres, 8 miles north of Fort Saskatchewan, has already been under cultivation. Log cabin and stables.

'Phone 505.
Office: 123 Jasper Ave. Edmonton.

JASPER'S LIMITED

LOCALS.
Six acres of machinery for the North-
western Trading Company, have arrived in Strathcona.

Dr. and Mrs. Archibald, who were on their way to the coast, have been summoned home on account of the illness of their infant child.

The Chinaman charged with gambling on the night of Good Friday were arraigned last evening before Magistrate Cowan, and further remanded till Saturday at 2 p.m.

Work was commenced this morning by the May-Sharpe Construction Co. on the foundation for the new post office at the corner of McDougall and Bloor.

M. Hogan, of St. Albert, has been appointed principal of St. Anthony's Separate school via Mr. O'Brien, resigned. Miss Lannon, of Wetaskiwin, who was at first offered the position, was unable to accept.

The supreme act of the Operatic society will rehearse in the Thistle rink at 8 o'clock to-night for the "Pirates of Penance."

The Edmonton orchestra has been suggested to furnish music for the calico ball to be given at Fort Saskatchewan on Tuesday, in aid of the hospital fund.

G. L. Stebbing and N. Sears, of St. Paul de Metis, are registered at the Castle.

J. Cumming, a prominent Brandon, Man., grain dealer, is here today at the Alberta.

Mr. and Mrs. J. Robertson, of Carleton Place, are guests at the Cecil today. They are on a holiday trip to the coast.

H. T. Langmaid arrived from Lac la Poudre on Tuesday, and is at the Queen's.

AWAITS TRIAL FOR THEFT.

In one of the cells of the police station, Frieda Schreiber, a domestic lately in the employ of D. W. McDonald, is awaiting trial on a charge of petty larceny. The girl has been employed as a domestic in the home of Mr. McDonald for some time, and it is alleged that she has been gathering in numerous articles during her residence there. The case will come on for trial this afternoon.

QUIT PEDIGREE CATTLE.

(Canadian Associated Press Dispatch)
Toronto, April 2.—John Dryden, one of the Imperial Commissioners of Irish Agricultural affairs, leaves Tuesday for London to attend the final sessions of the commission and draw up a report. He will recommend the retention of the present system of agricultural education in Ireland and the raising of grade cattle rather than pedigree cattle in Ireland.

FOR SALE—House, built for a home, seven rooms, reception hall, bathroom and pantry; all modern conveniences. Price \$1,000.00. See owner, 108 1/2 1/2 street.
